This season has been an incredible season for both the team and I. We have accomplished many things. Whether it's Justin Seeley destroying the competition in the hurdles, Joe Huffman throwing state qualifying distances in the beginning of the season, or Jordan Starkey and I cutting time off to below state qualifying in the distance races. The team support has been great also. During races, the team would run across the roped off football field just to cheer a couple guys on, even risking disqualification by doing so. Other highlights include the good runs the distance guys partake in, which includes finding junk, swimming in all available water, and running the fun eleven mile hill loop. It has been great year, and the team will continue moving forward and improving in years to come.

Alex Platz clears the bar

This year's track season has been one that will be remembered. Claiming the NIB12 title two years in a row and following it up with claiming the sectional champions title. Our team has become stronger this year than years in the past. Not only were we stronger in our times, heights, and distances, we have grown stronger together. We support each other through the ups and downs while making the most of the time we have left together. It was a blessing to finish my last year with these girls. We had a season that cannot be forgotten. Remember: what doesn't kill you makes you stronger, so run a little faster, jump a little farther, jump a little higher, and throw a little farther.

# Track & Field

This year's track team was a very young team. Along with some strong upperclassmen athletes, there was a lot of talent from the underclassmen. I look forward to seeing these classes compete in the future and wish them the best of luck. The weather was pretty brutal for most of the season, but overall, we made the best of it and competed hard. I would like to thank the coaches for all the time and effort they put in this season and for all the support and inspiration they gave us. Whether it was Dugan's epic fall in the 300's, Luke's plummet in the pole vault, or any of the other memories made, this season will definitely be one to remember.

Nobody will forget this season! The obstacles we overcame, the teams we beat, the records we broke, or the titles we achieved. This group of girls was a force to be reckoned with. At the start of the season, teams were overlooking us. As they were being interviewed by the press, we were consistently working hard on technique and power. Other teams didn't believe in us--they said we had no chance against the teams in our new conference. At the NIB XII conference meet, we opened their eyes. These teams finally saw the machine that we really were. Once at Sectionals, after the seniors gave our team--made up of 25 underclassmen--advice on how to handle their nerves at Sectionals, we knew that our hard work was going to pay off. We sent a record high of 11 girls and 12 events down to State--a great experience, a time to see incredible talent. As the weekend progressed, our team was repeatedly stepping onto that podium. As the state meet was coming to a close, we had nothing to do but celebrate. The team had brought home 9 IHSA State medals and 25 points to give us a 9th place finish (highest in school history). We had completely re-written Geneseo's record books. To be a senior on this team already made it special, but to have this kind of season be my senior year just makes me so proud of my teammates. They all have bright futures, and I'm excited to see what this team will do in the years to come. None of this would have happened though without our coaches. Thank you for everything you have done for us.
