

MATHSETTER

Taylor Davis

How does it feel to have earned the title Mathsetter?

Honored, but now I have to buy Mr. C. (always proofread)

Do you plan to continue with math (directly or indirectly) in college?

Of course, yes. If I said no, I might be able to hear the sound of doors shutting.

How many times have you laughed in class this year?

Countless times. AP Calc is a class full of my friends, and Mr. C can crack a good joke every once in a while.

Do you have a favorite number?

7. It's my birthday, and I'm 17 right now.

What is your opinion on technology? Good or Bad?

Neither. Mr. Bess told me technology is merely a device; humans choose the direction technology takes.

What is your favorite word in the English (or any) language?

Besotted. It's fun to say, and it is just a very passionate, old fashioned word. Galleta is a close second.

Does math come easy to you, or do you have to work at it?

Depends on the unit. Mostly comes pretty easy, but I always study just in case.

Any story you would like to share about one of your classmates?

Alex Belanger participated in the men's volleyball game last year because I entered his name for him in the poorly setup google form. He scored a ton and was definitely the MVP.

Favorite Movie and/or Book:

Movie: Top Gun or Batman (2022) Book: The Kate Daniels Series or Enders Game

Favorite Fictional Character:

Annabeth Chase. Having grey eyes and blonde hair made her my role model, and I was a Percy Jackson kid from day 1.

Best piece of advice you have heard in school?

It's not exactly advice, but "Hearts on Fire, Mind on Ice" is something I'll never forget.

What is your favorite joke?

What happens at 7, stays at 7.

If you could be a super hero, who would it be and why?

Jean Grey because she's got telepathy and telekinesis. And she's super cool.

Any advice you would give to students who have to have Mr. C for a teacher?

Mr. C is chill, but don't be an idiot and test his limits. Just trust me.

Favorite food or place to eat:

I'm addicted to the Allen Special at Los Ranchitos and Texas Roadhouse bread.

What is your LEAST favorite color?

This doesn't count as a least favorite color, but a pet peeve of mine is when people say their favorite color is black or white. They're not actually colors—google it.

What is your favorite hobby, why?

Reading: it's like watching movies but much more insight into character motivation, and you can go at your own pace.

How many times have you dropped your calculator in class?

I am proud to say the answer is 0. I'm not like the other careless plebeians in this class.

What is your favorite non-perishable food item?

Baked Cheetos or Sun Chips

What is your favorite article of clothing?

My hot topic Robert Pattinson t-shirt

What is the most fun you have had in a Math class?

Playing lullabies every time someone fell asleep in Pre-Calc.

What is the most recent search item you have attempted?

”What intermolecular forces are present in propanoic acid.” Boy, do I love AP Chemistry FRQs.

What is your favorite song?

Punisher by Phoebe Bridgers

Person from the past that you would have most liked to meet?

The Zodiac Killer. I've got to know what's up with that guy.

What is your favorite equation or formula?

The distance formula

What is your favorite kind of weather?

Cool enough to where your ears and nose are cold and it's sorta hard to smile,
but going inside feels so nice. Basically early fall weather.

What is your favorite place to do your homework? Why?

In my sunroom. The windows let light shine through, and there's a TV where I put on Gilmore Girls.

What is your favorite gift you have received or given?

Someone recently gave me me a local motive gift card for helping them when in need.
It was the kindest thing someone's done for me in a while.

If you were an alien, what planet do you think you would come from?

Jupiter

What is your preferred method of tying your shoes?

I learned this weird method from a friend in elementary school where you make two L's with your
hands and go over with one and under with the other. Hard to explain but I've never gone back since.

If you could choose, which decade would you like to have been born in?

The early 60s. Just so I could be a teenage girl during the 70s.

Where plan to go to College:

Personally, I hate this question. I've got no idea, I'll let you know when I've gotten
my admission letters back.

AP Calculus - Is it as intimidating as it sounds?

Let's just say, I'm contemplating whether or not I'm actually good at math.

What is your favorite time of the day?

Dusk.

Which came first the chicken or the egg?

The egg.

Activities Involved in at School:

Marching Band Drum Major, Maplettes, Robotics Club, Honors Band President,
Pep Band, Madrigal, 100 Book Club, Thespian Society Officers, Musical, NHS

Is there anything else you would like to share?

Mathsetters need deadlines. Mr. Christensen has been hounding me to get this back to him,
but he really never did specify a due date.
