

Quad-City AA runners get new challenge in sectional meet

By Tom Johnston
Staff sports writer

When it comes time for tournament-series events, most teams don't like surprises. But it looks like the Quad-City teams are going to be in for just that Saturday at the running of the Class AA East Peoria Sectional.

This is a new sectional assignment for the local runners and none of the coaches are sure just what will be in store when they take to the Illinois Community College layout for the first time. The girls' 2.1-mile race is scheduled to start at 10:30 a.m., the boys' 3-miler at 11:30.

The top five teams in each race, plus the top 7 individuals not on a qualifying team, will advance to the state meet Nov. 9 at Detweiller Park in Peoria.

Geneseo coach Don Fredericks didn't mince words when describing the task at hand Saturday for the local boys in the first-ever East Peoria gathering.

"It's going to be a war," said Fredericks. "The way I see things, there are six ranked teams in there and the way Rock Island is running, they should be ranked, too, so make it seven."

Along with Sterling Regional champ Moline (ranked third in this week's final power poll), Geneseo (19th) and Rock Island (which was 21st last week but dropped out this week), are Oswego (11), Rockford Guilford (16), Normal Community (17), and Pontiac (18).

All appear to be contenders for the five team spots in the boys field. Defending sectional champ Peoria Notre Dame and Pekin are other teams to watch.

On the girls side, the race could be just as close. The general consensus among the local coaches is that eight teams — state-ranked Rockford Guilford (11), Peoria Richwoods (16) and Pekin (17), along with highly-tested Belvidere, and four of the Sterling Regional survivors — Moline, Geneseo, Rock Island and Sterling — will be battling for the five team spots.

Races for individual honors will be just as competitive as a number of potential all-staters will go at it.

On the boys side, three of the four local coaches feel their teams have a chance of making it to state, while the fourth couldn't be happier with how his team is running right now.

"I think our regional can go 1-2-3," said Moline coach Jeff Quick still optimistic despite his team's having run one of its worst races of the year last Saturday in winning the regional title.

"We were lethargic last week when we ran basically 35 to 50 seconds slower per man. If we run our normal race, we're out there in front."

Quick was looking at results of last week's regionals and noting the split of the top five runners when making his remarks.

"I think three of our teams have an excellent chance of making it to state," said Quick.

Geneseo's Fredericks and Rock Island coach Dave Archibald are taking a little more guarded approach to the sectional.

"I think it will be an interesting competition," said Archibald. "To my knowledge there are at least nine teams that have a shot of advancing to state and I would say Rock Island's position is near the bubble."

"It will take each of the top five runners running their race. Recently we've had four of five running well with one dropping back. We need all five to be in a pack."

Rock Island will get a boost with a healthier Scott Clark, who ran the regional with the flu and didn't return to practice until Wednesday this week.

Fredericks called his Maple Leafs one of the best-kept secrets in the state of Illinois. He also thinks his

group can be right there for a shot at getting their fourth-straight trip to the state finals and of equalling or bettering last year's fifth-place finish.

"I like how our kids are running and they're hungry," said Fredericks. "I like our chances. We have to run well Saturday and don't have room for error, but I'm excited."

United Township coach Gary Phillips knows the chances of his young team making it through are slim, but he holds high hopes for senior Daniel Caulkins and junior Mike Veloz. "If things work out, those two could be in the state finals," he said.

But even if they don't make it through a tough field — headlined by standout John Wetzel of Metamora and a leading candidate to win the state championship next

"We've had one of the best weeks of practice we've had for a long time," he said. "We want to get some experience for the younger kids and come in with a good showing and end the season on a good note to carry over into next fall."

Once again, three of the four area Class AA school look to have a chance of qualifying in the girls race, with United Township hoping to get Amy Allen through as an individual.

The catch for the locals in this race, though, is that the top four teams from the Sterling Regional — Moline, Sterling, Geneseo and

Rock Island — could be chasing only one spot.

"I told the girls we could just show up and get 8th, but we'd certainly like to do better," said Rock Island coach Bob Wilson. "There are a few teams who are locks, but I've been around for a long time and seen teams that are favored get blown out. It's just how a team reacts to the situation."

Geneseo's Fredericks hopes a good week of recovery time for ill and injured runners will help his troops.

"We were far from full strength last week," he said. "I think if we're running full strength, we knock off 20 points from our score and add some to other teams and we're running right with Moline. I feel we've got to beat Sterling and Rock Island and run with Moline in order to advance."

Sophomore Dawn Yarger, who was in a car accident and got bounced around pretty badly, and freshman Mary Stancliff, who was battling the flu, are full-strength and will help the Maple Leafs try to get back to state after a four-year absence.

As in the boys race, the United Township contingent is probably limited to an opportunity to qualify individuals.

"That's not to say as a team we can't be competitive," said UT coach Brian Mohr. "We want to run a good race and see what happens."

Lester's gritty winning effort carries Maroons to state meet

By Tom Johnston
Staff sports writer

EAST PEORIA — Mind over matter. And wind. And cold. And snow.

Moline senior Trista Lester was all smiles here

AA girls sectional

Saturday before, during and after her winning effort at the East Peoria Class AA girls sectional cross country meet.

Despite the miserable conditions, including a wind chill factor of zero and snow flurries, Lester was at her best in touring the 2.1-mile Illinois Central College layout in 12:58. She was smiling all the way, especially right before she crossed the finish line.

"I was trying not to, because I didn't know if there was anybody behind me," she said, of course, with a smile.

There was no chance of that. Lester topped the field by 13 seconds.

Her effort was needed by the Maroons to grab the fifth and final team spot for Saturday's state meet at Peoria's Detweiller Park.

The Maroons were the only local team to advance to the state finals. Rock Island, which had freshman Jen Wilson finish sixth and qualify as an individual, was eighth as a team. Geneseo, running without No. 1 runner Kristy Windy who was home with a severe case of the flu, finished ninth and United Township was 13th in the 19-team field.

The Maroons and Rocky's Wilson were the only Q-C state qualifiers out of the cold and windswept meet.

Like most coaches thought beforehand, only one team from the Sterling Regional was going to make it out of this sectional and that

was just how it worked out. Moline, which tallied 171 team points, finished behind Pekin (62), Peoria Richwoods (80), Metamora (143) and Rockford Guilford (151).

The results led most coaches to believe that in the first year of the new sectional assignment, there was a definite advantage to teams familiar with the course. While the top three ran the new course this sea-

son, Moline worked out on it Friday as did Guilford.

And maybe that was the edge Moline needed — along with Lester, of course.

"She just ran a great race," Moline coach Jeff Quick said of Lester. "A day like this favors Trista because she's not as speedy as some of the other girls. She's a stronger runner and that's what it took."

Moline assistant coach Larry

Carls may have put it best when he said, "On a day like this you run with your heart and your head."

"I like it when it's sloppy, not this cold, but..." said Lester, a senior who was an all-state runner as a freshman and bounced back from a number of health-related setbacks in the last two years. "With the weather being bad the last couple of weeks, it wasn't hard to get ready."

The adverse conditions never bothered her as she led from the early stages of the race.

Joining Lester at state will be Moline's other top five finishers of Jenny Blomgren (40th), Jenny Suess (46th), Stacy Winters (54th) and Wendy Johnson (58th).

Wilson finished in 13:20, which was more than enough to shake the cold out of her coach.

"Speaking from a parent's and coach's standpoint, I'm thrilled,"

said her father and coach Bob Wilson. "I'm sure as a freshman she doesn't even realize what she's accomplished, though."

Geneseo's chances suffered a major blow Friday night when top runner Windy was rushed to the hospital at around 7 with what was thought to be appendicitis. It turned out to be a severe bout of the flu, but it was enough to keep her in bed for the weekend.

With a healthy Windy, the Maple Leafs may have finished in one of the top five team spots, but coach Don Fredericks was happy with the way all of his youngsters ran. "Our girls ran just awesome," he said.

It was also a disappointing day for the UTHS Panthers. Junior Amy Allen, who had been running well all season and was thought of as a probable state qualifier, finished 28th as her season came to a close.

Moline and Geneseo survive sub-zero chill, sub-par efforts

By Tom Johnston

Staff sports writer

EAST PEORIA — Both the Moline and Geneseo boys teams had their state tickets punched at the Peoria cross country sectional here Saturday, but you didn't see much celebrating from either bunch.

Moline led the five qualifying teams in the 20-team field with 95 points and Geneseo finished third with 176 points. In between was Rockford Guilford with 163 points, while Oswego and Pontiac each totaled 178 points. All five advance to Saturday's state meet at Peoria's Detweiller Park.

While the two local schools had their entire teams advance, Rock Island and United Township were shut out. The Rocks finished seventh and didn't have any individual close to advancing.

United Township was left on the

doorstep in the snow flurries, wind and zero-degree wind-chill. While the team was 19th, senior Danel Caulkins ran a great race with a 16:12 clocking on the 3.1-mile three-loop Illinois Central College layout and finished 13th.

The only problem was that the race was top-heavy with individual talent and Caulkins was the 11th runner to cross the line and not be on an advancing team. The top seven of those move on to state.

"Usually you can place somewhere in the teens and still advance," said UT coach Gary Phillips. "I feel so bad for the kid because he ran so well."

Moline and Geneseo coaches both felt they may have gotten away with one Saturday, being short of their best and still faring well.

"This is the worst week of the season when you run sectional," said Moline coach Jeff Quick. "The state meet is icing on the cake. To me,

this is the most nerve-wracking meet of the year."

"Our depth really showed. We're going to talk in great depth to find out what we need to do to handle the weather better. I've never coached in anything like this and I've never run in it."

Moline got a shot in the arm from sophomore Jamie Verstraete who logged a sixth-place finish with a 15:54 clocking to lead the third-ranked Maroons to the sectional ti-

"I was very impressed with Verstraete," said Quick. "He has been able to totally overcome the weather conditions the last two weeks. Nothing seems to phase him."

It was the Maroons' pack that made the difference in the strung-out race as they had a 1-to-5 split of 45 seconds. Seniors Kevin Hubbard and Steve Cunningham finished 24th and 26th, respectively, and

were followed by Chad Pankey in 27th and John Roehr in 35th.

Solid efforts, but Quick was still concerned.

Geneseo coach Don Fredericks also showed more concern than excitement, but was a little optimistic.

"The boys were a little off and I'm not sure why," said the sixth-year coach. "But luckily we were strong enough to get through. I think our top guys were a bit off — Andy (Snook) was off, Josh (Pierce) was a bit off, but our pack was solid."

Snook, who won last week's regional title, finished 16th in 16:19 and Pierce was 28th in 16:28.

Fredericks only has to remember back to last year, though, to turn his thinking a bit more optimistic.

"Last year we didn't have a great sectional run either when we finished fourth and then placed fifth at state," he said. "Maybe we can do it that way again."

Rock Island, led by Mike Donegan's 40th-place finish, came in with a nice pack, but it was just a bit to

far back to make any noise in the team race.

"Our pack was better than it had been before this season, but just not good enough," said first-year coach Dave Archibald, who watched his team total 237 points, 59 shy of fifth. "We knew that we were on the bubble and had to step it up a notch."

In the miserable weather conditions, that was a tough task for everybody. Moline and Geneseo just handled the elements bit better.

ILLINOIS CROSS COUNTRY

Moline dominates Class AA sectional

■ Boys squad earns state berth

By Jim Gross
QUAD-CITY TIMES

EAST PEORIA, Ill. — The Moline boys cross country squad used its balance and depth to dominate the rest of the pack en route to the Class AA sectional team title on a cold Saturday afternoon at Illinois Central College.

Moline earned its berth to next Saturday's state meet by racking up 95 points with five Maroon runners placing in the top 30. Rockford Guilford

Quick

ended up a distant second with 163 points while another Quad-City area team, Geneseo, placed third 176 points.

Maroon's boys coach Jeff Quick compared his current Moline team to the good Maroon squads of a few years ago.

"It's the kind of thing we sought two or three years ago when we got third or fourth in the state," Quick said. "Not everyone is going to be up front,

but we are interchangeable."

Jamie Verstraete finished fourth with a time of 15:54 to pace the Maroons.

Teammates Kevin Hubbard (24th), Steve Cunningham (26th) and Chad Panke (27th) all placed well to help the Maroons take the team title.

Verstraete in the last two weeks has been able to totally overcome weather conditions; nothing seems to phase him.

"I'm very impressed with him as a sophomore," Quick said.

Geneseo also had a good outing, as Andy Snook led the Maple Leafs with a 16th place and teammate Josh Pierce finished 27th.

Still, Geneseo coach John Fredericks feels that the Leafs' potential is much better than Saturday's showing.

"I'm pleased with the third-place finish, although it's not the best race of the year for us. I'm not really certain why that is," Fredericks said.

"Hopefully, next week will be the time to flex our biceps and show people what we can do."

United Township's Dan Caulkins finished 13th to just miss qualifying for state individual competition.

Maroons' Lester takes sectional title

By Jim Gross
QUAD-CITY TIMES

EAST PEORIA, Ill. — Even though winds howled at close to 30 miles per hour, bringing the wind chill down to a frigid zero, Moline cross country runner Trista Lester was still able to warm up to the task at hand.

Lester circled the 2.1 mile course at Illinois Central College in a time of 12:58 to capture the Class AA sectional individual title on Saturday.

Her win also helped Moline qualify for next Saturday's state meet at Detweiler Park in Peoria.

Lester said it was a big advantage that Moline girls coach Jeff Quick had gotten the team prepared for the bitterly cold weather.

"Our coach prepared us from the very beginning that the weather was going to be bad, so I just went out and ran and tried put it off my mind," Lester said. "This definitely was a big confidence-builder

for me. It definitely wasn't something I expected. I was hoping for a top-five finish."

Pekin took the top team honors with a score of 62 points. Moline placed fifth with 171 points and Sterling missed qualifying at sixth with 185 points. The top five teams and seven individuals not on a qualifying team qualify to advance to the state meet.

Other area teams that placed in the top 15 in the 19-team field were Rock Island (8), Geneseo (9) and United Ship (13).

Geneseo girls coach John Fredericks felt that if his number-one runner had been healthy, his team might have made it to state.

"I figured she would have been about 20th; if she's 20th, we qualify as the fifth team."

"You can 'if' it to death, but our kids ran well enough to qualify, but our number one runner happened to be sick to day."

Individually, Jen Wilson of Rock Island placed sixth with clocking of 13:20 to advance to state. Sterling's Jacqui Vazquez finished 11th, good enough for a trip to the state meet.
